

Neural Networks I
November 3, 2004
G. Lendaris

Assignment 4: Due Wednesday, November 12, 2003.

Read the section on BAM in NeuralWorks NC-87 to NC-93, and do some experiments with the BAM example, as described on pp NC91-93.

There are a variety of attributes of the model that you can vary, as suggested in the text. "Play" with this, and submit a 1-2 page summary of what you did, and what your experiences with it were.

Assignment 5: To be handed out Wednesday, November 12th.
Due Wednesday, November 19, 2003.

Entitled: "PRELIMINARY INFORMATION re. PATTERN RECOGNITION
COURSE PROJECT and start-up assignment."

Assignment 6: To be handed out Wednesday, November 19th.
Due, Wednesday, December 10, 2003.

Entitled: "PATTERN RECOGNITION PROJECT for rest of term."
